ABOUT ME

Brief Description

Experienced IT professional with a background in systems administration, on-site support, and hardware maintenance. I hold a BSc in Electronics Engineering, complemented by certifications in C, Python, cybersecurity, SQL, Azure Cloud, and Cisco networking. Proficient in a range of technologies, including Windows and Linux systems, networking, scripting, software development, CI/CD with Docker containers, and cloud services. A problem-solver with a strong focus on optimizing IT environments, ensuring security, and delivering top-tier remote and on-prem support.
